

## Kuparuk River Basin Vegetation

- 1 Barrens
- 2 Moist nonacidic tundra
- 3 Moist acidic tundra
- 4 Shrublands
- 5 Wet tundra
- 6 Water
- 7 Clouds and ice
- 8 Shadows
- Watershed boundary

This image is derived from a mosaic of Landsat Multispectral scanner (MSS) images of the Central Arctic Management Area (CAMA) and the Arctic National Wildlife Refuge (ANWR), Northeast Alaska. The mosaic was prepared by the National Mapping Division, U.S. Geological Survey EROS data center, Anchorage, Alaska. Processing was done using bands 2, 3, and 5 of Landsat MSS scenes acquired during the period 4 August 1976 to 2 August 1985.
